With Tonga aiming to achieve 70% renewable energy by 2025, this solar energy storage tender represents a critical step toward energy independence. The island nation currently relies on ...

Tonga power photovoltaic solar container project This landmark project marks the start of an ambitious expansion plan for 2025, with accelerated solar and storage development activities.

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.
