It has a CAN or RS485 interface design, and adopts a comprehensive and multi-level battery protection strategy to ensure the safe operation of the energy storage system;

With 82% of utilities planning time-of-use rate adjustments by 2026, scalable storage becomes non-negotiable. Our containerized 10 MWh battery systems allow capacity expansion in 2.5 ...

Mobile energy storage reduces voltage losses and improves power quality since excess energy is stored avoiding long distance energy transmission. Although this effect is ...

This is the first 10MWh single-container solution in the industry. With a volumetric energy density of 146Wh/L, its modular architecture enables scalability for GWh-level utility ...
