Product Features: output power (KW): 22 Input Current (A): 51 Rated Output Current (A): 46 AC pumps in solar pumping systems with automatic MPPT (Maximum Power Point Tracking) ...

eximis sunVTR 22KW 3PHASE Solar Pumping Inverter represents a high-performance top of the state solution for utilizing solar energy to power water pumps in three-phase systems.

22 kW solar water pump inverter, converts DC 450V-750V or AC 380/400/460/480V to AC output. It comes with internal MPPT real-time detection of solar panels" power voltage.

EN600PV series solar pumping inverter specially designed for solar water pump system use. Built-in maximum power tracking algorithm, which can improve the efficient use of solar energy.
