The industrial and commercial energy storage system mainly consists of batteries, BMS, PCS (bidirectional converter system), electrical circuits and protection, and EMS system.

AZE's 40Ft containerized battery energy storage system comes in scalable containerized modules ranging from tens of kWh to MWh energy capacities. The solutions offers plug-and-play ...

This system is engineered for performance and durability. With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all ...

The system can be used to store electrical energy for commercial, industrial, or grid-scale applications. It is equipped with battery room, transformer, controller, HVAC, and other ...
