Includes detailed analyses and models for estimating data transfer rates, base station coverage, and required base stations. Features MATLAB ...

Therefore, this paper proposes a two-stage robust optimization (TSRO) model for 5G base stations, considering the scheduling potential of backup energy storage. At the day ...

Aiming at minimizing the base station (BS) energy consumption under low and medium load scenarios, the 3GPP recently completed a Release 18 study on energy savi

As 5G evolves to 6G, network management faces growing challenges with increasing base station density, leading to more frequent outages. To address this, we ...
