Local radio and TV stations, along with cable, direct broadcast satellite and wireless service providers, disseminate the public ...

This document establishes a minimum level and standard configuration of programming for interoperability and common channels into base stations ...

ARCS typically consists of a transceiver (base station) connected to a building-wide antenna system, with a radio console in the building lobby.

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an ...
