Average EXW prices from distributors for residential solar panels are reported between EUR0.125/W and EUR0.100/W, depending on the volumes.

Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

US solar module prices rose in December 2024 for the first time since last summer, driven by tariff adjustments and patent litigation uncertainty, according to Anza.

Data include manufacturing, imports, and exports of modules in the United States and its territories. Summary data include volumes in peak kilowatts and average prices.
