---

Our BMS keeps track of the current range and stops charging the battery in case of overrange by breaking the circuit. It plays a key role ...

This paper presents the development of an advanced battery management system (BMS) for electric vehicles (EVs), designed to enhance battery performance, safety, and ...

With an astute understanding of the significance of accurate battery parameter estimations and the critical role of a Battery ...

To accurately evaluate the SOC/SOH, it is necessary to reflect various conditions such as the power of the battery during actual vehicle ...
