---

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

Solarvest Holdings Bhd's subsidiary, Atlantic Blue Sdn Bhd, has secured Brunei's largest national solar photovoltaic (PV) project, with a generation capacity of 30 megawatts.

No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each battery module..

This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar initiative under a Public-Private Partnership (PPP).
