**Sustainability:** The system is designed to be fully off-grid, powered by a solar-battery microgrid, and recycles most of the water used (up to 95% less water than traditional farming).

This dual approach balances short-term revenue from equipment sales with long-term value from ongoing operations. The Barbados pilot serves as a model for off-grid ...

In Barbados and Jamaica, utilities are navigating an increasingly complex transition. Barbados: Distributed solar installations ...

The plan aims not only to reduce the island's dependence on fossil fuels--a strategy underscored by the launch of a 10MW solar plant--but also to create new economic ...
