Power utility Eskom and Hyosung Heavy Industries on December 7 marked the beginning of construction of the first energy storage facility under Eskom's flagship Battery Energy Storage ...

As renewable energy accounts for 8% of South Africa's electricity mix (and growing fast) [6], this \$120 million facility serves as both a technological showpiece and a reliability game-changer.

In 2025, South Africa's energy landscape is undergoing a radical shift. With rolling blackouts costing the economy over \$10 billion annually [1], Bloemfontein-based manufacturers are ...

While the Bloemfontein project currently focuses on frequency regulation, plans are brewing for solar-plus-storage microgrids in nearby towns. Imagine entire communities ...
