There has been a major pick-up in solar panel imports into Africa over the last 12 months - a shift that is likely to impact almost every country on the continent. This report ...

The prices of made-in-China panels are by far the lowest in the world. South Africa's rapid pivot to Chinese solar gear, as affordable as it is, also doesn't resolve a basic problem.

According to the International Renewable Energy Agency, China continues to dominate the solar industry in terms of solar PV installed capacity. This has influenced the ...

"African consumers prioritize price and practicality over brand and quality, leading to intense low-price competition," said Huang Yan, head of the Kenyan business of Sanjing ...
