What is the Columbia Energy Storage Project?

Sign up for WPR's email newsletter. The Columbia Energy Storage Project would store excess energy from the electric grid by converting carbon dioxide gas into a compressed liquid form and then converting that liquid back into a gas, powering a turbine to generate electricity, according to the Department of Energy.

Will Alliant Energy build a long-duration energy storage system in Columbia County?

Alliant Energy filed an application with the state Public Service Commission on Aug. 7 to build a long-duration energy storage system in Columbia County. It would be the first project of its kind in North America.

Who owns Columbia Energy Center?

Columbia Energy Center is a base load, sub-bituminous coal -fired, electrical power station located south of Portage in the Town of Pacific, Columbia County, Wisconsin. Ownership is 46.2% Wisconsin Power and Light Company (Alliant Energy), 31.8% Wisconsin Public Service (Integrus Energy Group), and 22% Madison Gas and Electric (MGE).

Utility company Alliant Energy has received approval from the Wisconsin Public Service Commission (PSC) to advance its Columbia energy storage project, which will use ...
