The project will be implemented near the existing Columbia Energy Center in the town of Pacific, south of Portage. It aims to deliver up to 200 MWh of energy--enough to ...

The Columbia Energy Storage Project is poised to provide enough electricity to power approximately 18,000 Wisconsin homes for 10 hours on a single charge, enhancing grid ...

The Columbia Energy Storage Project will use compressed carbon dioxide to store energy over a full 10-hour discharge period--enough to power around 18,000 homes in that time.

A first of its kind energy storage system coming to Wisconsin took a step forward this month, almost a year after the project was ...
