SummaryCamouflageOverviewOperationTemporary sitesEmploymentSpy agency setupOff-grid systemsThere is often local opposition to new masts for reasons of safety and appearance. The latter is sometimes tackled by disguising the mast as something else, such as a flag pole, street lamp, or a tree (e.g. palm trees, pine trees, cypress) or rooftop structures or urban features such as chimneys or panels.

Rooftop cell sites, also known as rooftop telecommunication towers, are critical for delivering high-speed mobile and internet services in space-constrained urban environments.

Macro Base Station. Radio network telecommunication equipment with radio modules and smart antennas mounted on a metal on rooftop against clouds sky background.

Whether installed on roof or ground, these strong, robust towers provide a reliable, adaptable antenna mounting solution. A reliable wireless communications system starts with a solid base ...
