Aljada, a new development in Sharjah, is a smart, sustainable community that features solar energy systems integrated into its design. The development aims to create a ...

In 2013, the Shams solar power station, a 100-megawatt (MW) concentrated solar power (CSP) plant near Abu Dhabi became operational. The US\$600 million Shams 1 is the largest CSP plant outside the United States and Spain and is expected to be followed by two more stations, Shams 2 and Shams 3. Masdar City in Abu Dhabi was designed to be the most environmentally sustainable city

A consortium led by France's EDF and China's Jinko Solar will build the 20 square kilometres (7.7 sq mi) PV plant in the Al Dhafra region, about 35 km south of Abu Dhabi City, using bifacial ...

Explore our innovative solar panel container projects that have transformed energy solutions for businesses and communities across various industries and regions.
