Europe's largest hybrid power plant is being built by the Spanish electric company Endesa in Pego, Portugal, in the District of Santarém. The plan is to build a combination of a ...

By embracing hybrid PV systems, we can enhance Europe's energy security, drive industrial competitiveness, and accelerate the transition to a carbon-neutral future.

As Europe strives to enhance energy security, reduce system costs, and accelerate decarbonization, unlocking the full potential of hybrid PV systems must become a ...
