Imagine if Earth itself could act like a gigantic rechargeable battery--no lithium, no rare metals, just good ol' dirt and rocks. That's the wild promise of deep earth energy storage, ...

Wind and solar are booming, but long-duration energy storage remains a missing piece of the clean-power puzzle. One emerging solution is geochemical energy storage (GES) ...

Our innovative system uses only well-established technologies: we leverage the same motor/generators used in wind turbines, and we use the same deep mine shafts which have ...

Now, a Texas-based company has successfully demonstrated that its Geochemical Energy Storage (GES) system--which injects water into impermeable rock under ...
