This power station is expected to diversify electricity sources in DRC, where solar power accounted for 20 MW out of a total of 2.9 GW of installed capacity as of December 2022.

According to CBE, the project will be Africa's first baseload renewable energy power plant and will feature a 222 MWp solar PV system, and a 123 MVA/526 MWh battery energy ...

The project will bring 30 MW of round-the-clock clean energy to the Kamoia-Kakula complex in the Democratic Republic of Congo (DRC) ...

Renewable energy producer Tinda Energy and China National Complete Plant Import & Export Corporation Limited (Complant) are set to develop ...
