Whether you're considering solar panels for house use or want to make your business eco-friendly, evaluating your roof's suitability is the first crucial step. In this guide, ...

Solar panels are mounted directly onto brackets or frames without altering the existing roof material, whereas solar tiles require fitting onto the roof ...

Solar panels are mounted directly onto brackets or frames without altering the existing roof material, whereas solar tiles require fitting onto the roof and sealing.

Solar panels are built to work in all climates, but in some cases, rooftops may not be suitable for solar systems due to age or tree cover. If there are trees near your home that create excessive ...
