By instantly tapping into its robust energy storage, the system prevents disruptions--whether it's a concert, game, or large gathering--maintaining lighting, sound, and critical operations without ...

Sporting and other big events hosted at stadiums and arenas can consume several megawatts of electricity, to power lighting, broadcasting, essential services and other equipment.

When an EV requests power from a battery-buffered direct current fast charging (DCFC) station, the battery energy storage system can discharge stored energy rapidly, providing EV charging ...

Our EV charging solutions for event venues can enhance guest convenience, and attract more visitors. Ideal for concerts, conferences, and festivals!
