Offshore charging stations have emerged as an innovative solution, despite increased investment and extended voyage durations. Here we develop a route-specific model ...

ABB has responded to rapidly rising demand for low and zero emissions from ships by developing Containerized ESS - a complete, plug-in solution to ...

The industry's advancements in charging infrastructure and strict regulations help these vessels lead the way toward a sustainable ...

2 Research Areas3 Research and Test Facility4 Research Impacts5 Target IndustriesThe research facility supports the development of advanced hybrid energy systems and fast-charging unit for waterfront and maritime applications. This has high impacts on reduced GHG emissions and reduced dependency on the grid. It leads to reduced electricity use and costs. It contributes to economic development for offshore and waterfront regions...See more on link.springer Email: Hossam.gabbar@uoit.ca.b_ans
