This fact sheet outlines a 6-step process to help organizations select a financing mechanism for onsite energy generation, storage, and/or energy efficiency projects.

QUEENS, NY --Today, New York City Economic Development Corporation (NYCEDC) and the New York City Industrial Development Agency (NYCIDA) announced the ...

Battery energy storage systems can address the challenge of intermittent renewable energy. But innovative financial models are needed to encourage deployment.

According to Erik, the top three financing barriers are the lack of long-term contracts, the need for project off takers, and performance guarantees.
