Unlike gas generators, which rely on burning fuel, a solar generator runs on solar energy, making it an eco-friendly option for powering your devices in a sustainable way.

Based on watts (W) and watt-hours (Wh), we've compiled a list of some of the top-rated solar generator products available for \$1,000 - \$5,000.

To actually take solar energy and turn it into usable electricity, you need both solar panels and a power station. On top of that, most portable power stations and solar panels are ...

At the Good Housekeeping Institute, our experts spent the last three years getting hands-on with over a dozen models to find the best solar-powered generators for various ...
