Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Will Georgia Power build a battery energy storage system?

Georgia Power has started construction on four battery energy storage systems across the state. The projects will add 765 megawatts of generating capacity, enough to power approximately 573,750 homes. Two facilities will be built near Air Force bases, one at a retired coal plant, and another will expand an existing facility.

How many MW of new battery energy storage will be available?

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration project is in development at Fort Stewart Army Installation near Savannah, Georgia.

Where are battery energy storage projects popping up?

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report. Most of the new batteries- 97% of them- ended up in ERCOT, WECC, and CAISO territories.

Two of the new BESS facilities will be built adjacent to both Robins Air Force Base in Houston County and Moody Air Force Base in Lowndes County. They will be co-located ...

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage ...

Two facilities will be built near Air Force bases, one at a retired coal plant, and another will expand an existing facility. The projects were ...
