---

Streamlined permitting under Solar Package I, the 87% plunge in module prices, and corporate off-take agreements are accelerating project pipelines across all system sizes.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market.

Solar (photovoltaic) panel prices This data is expressed in US dollars per watt, adjusted for inflation.

This month, the price declines mainly affected TOPCon modules in the higher performance classes, which fell by an average of EUR0.010/W, while prices for other module ...
