---

With the combination of bifacial N-Type TOPCon-cells together with the robust and durable glass-glass modular architecture, Luxor Solar introduced a new high-end solar module series to its ...

Double Glass is especially important in photovoltaic facilities such as solar power plants and with the expected long service life of modules such as ...

The choice of glass in a PV module has become a key consideration in efforts to improve durability in the face of extreme weather conditions.

Double Glass is especially important in photovoltaic facilities such as solar power plants and with the expected long service life of modules such as AKCOME, Jinergy or Jollywood.
