NLR's technical experts optimize wind energy systems for high-penetration renewable energy grids, autonomous energy grids, and next-generation hybrid power systems.

Development of an innovative hybrid solar and wind energy system, distinct in its use of MPC combined with PSO. This approach is novel in its ability to address the ...

Two diodes ensure that the currents from the wind turbine and solar panel do not oppose each other. The paper also discusses various aspects such as pre-feasibility analysis, ...

In Hamid et al. (2022), a grid-connected hybrid system, comprising the solar-PV unit and wind unit with back-to-back (BtB) ...
