Cuba on Friday unveiled a new solar energy park in the capital Havana, part of an ambitious project to alleviate the communist island's increasingly desperate struggle with ...

Outside Havana, the situation has stabilized into two possible scenarios: one of "normality," in which power cuts hover around 12 hours a day; and another of "contingency," in ...

The Havana San Lucia Pumped Energy Storage Company isn't just keeping Cuba's lights on - it's rewriting the rules of grid-scale energy storage with mojito-worthy innovation.

You'd think an island blessed with year-round sunshine would've cracked the code on renewable energy storage. Yet Cuba's power outages increased by 23% in 2023 despite adding 450MW ...
