---

A house that is so dry that its occupants want to humidify is a house that leaks far too much outside air. That dry air is flushing out the humidity produced by human activity inside.

we are looking at buying a house that has a stone fireplace in the living room and a place in the basement to connect a woodstove, the house is 1456 sq ft on one floor and the ...

Anyone watch Homestead Rescue Raney's ranch on Discovery channel? I was watching it last night and the father's house had a bit of a chimney fire that got out of hand and ...

The part of the house with the non-accessible crawl space has no plumbing or wiring under the floor. So what if I just pumped those areas full of foam? My worry would be ...
