What is the China Energy Map?

The China Energy Map offers a comprehensive, interactive visualization of key energy infrastructure across China. Since its initial launch as the Baker Institute China Oil Map in February 2019, the map has undergone significant development and continues to expand.

How many projects has China facilitated private participation in 2024?

The Chinese government has facilitated private participation in more than 8 000 recommended projects in 2024. World Energy Investment 2025 - Analysis and key findings. A report by the International Energy Agency.

Will China's new hydropower plant boost GDP?

By July 19, 2025, Chinese Premier Li Qiang confirmed construction had begun on five cascading hydropower stations at a total investment of US\$167.8 billion. Beijing argues the dam could lift GDP by 0.1 percentage points annually for a decade, a welcome stimulus for an economy weakened by a real-estate slump.

How has China shaped its energy investment strategy?

China's evolving macroeconomic priorities have long shaped its approach to energy investment. While China met its 5% GDP growth target in 2024, the economy faced mounting pressures from weak domestic consumption, deflationary risks and a deepening real estate crisis.
