How do I remove the battery case lid from the solar panel?

The solar panel is riveted to battery case. The battery case lid is attached to the battery case by friction. Remove the battery compartment lid by either pulling straight up on the solar panel or by using a flat head screwdriver lift battery case lid just above the raised ridge of battery case.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providing a line of defense against theft.

Can I use a different battery for my solar powered fencer?

NOTE: Replace battery only with Parmak Powerhouse rechargeable lead acid (Gel Cell) battery either item #901 (6 volt) or item #902 (12 volt) depending on which model you own. Using any other brand battery will reduce the performance of your solar powered fencer.

The installation process for solar battery cabinets may vary depending on the size and type of the system. It is recommended to hire a professional ...
