How do I find broadcast station coverage maps?

FCC & Media Bureau & Audio Division and Video Division, (202) 418-1600. Map Display Use the FM or TV Query to retrieve broadcast station coverage maps. At the FM Query or TV Query search form, enter your search parameters, and select the longer, detailed Query output. When the records are retrieved, look under each record for a series of links.

How does the FCC determine if a Broadband Map is accurate?

The FCC reviews the data and then publishes it on the National Broadband Map. You can easily dispute, or challenge, information shown on the map that you believe is inaccurate. An accurate map helps identify the unserved and underserved communities most in need of funding for high-speed internet infrastructure investments.

Where can I find information on television broadcasting?

For more information on Television broadcasting, please visit the Video Division website. FCC & Media Bureau & Audio Division and Video Division, (202) 418-1600. Map Display Use the FM or TV Query to retrieve broadcast station coverage maps.

Is radio reception protected from interference from other authorized stations?

However, radio or TV reception in areas outside of this service contour is not protected from interference caused by other authorized stations. Contour distances less than 1.5 km. The smallest curve on the FCC's FM and TV propagation curves calculates the contour location at a distance of 1.5 km.
