With its global certifications, this inverter is widely adopted in prosumer energy setups and is available in a range of power capacities from 8kW to 15kW.

The Growatt WIT 15kW-HU inverter is a three-phase hybrid inverter designed for residential and small industrial applications. It is known for its affordable price and high quality.

In Europe, the inverter is well suited for markets such as Poland, where rising electricity costs and energy independence are driving demand for high-power hybrid systems.

Hypontech's HHT-15000 3F hybrid inverter provides a modern power solution for medium-sized photovoltaic installations. The unit, made of die-cast aluminum alloy, features a maximum PV ...
