GF, GAF and GA contactors are specifically designed for switching DC circuits up to 1500 V. Thanks to the efficient breaking of DC circuits, the product range is one of the most compact ...

DC motor contactors are specifically designed for switching DC loads. They are commonly used in applications such as electric vehicles, battery chargers, solar inverters, and other industrial ...

Sensata Technologies" HX series high voltage DC contactors are ideal for inverter systems, battery packs, and combiner boxes in solar or wind power systems.

Explore our advanced lineup of DC contactors, meticulously engineered to meet the rigorous requirements of diverse applications such as motor controls, battery management, and ...
