---

The facility combines 16 MW of solar generation with a 10 MW/20 MWh lithium-ion battery energy storage system, connected to the national grid operated by Senelec under a 20-year take-or ...

The integrated containerized photovoltaic inverter station centralizes the key equipment required for grid-connected solar power systems -- including AC/DC distribution, inverters, monitoring, ...

The project, expected to be fully operational and grid-connected by March 2027, will feature a new Padure 330kV substation linking to Latvia's national grid via high-voltage lines.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
