-----  
Who makes aluminum solar panel frames?

Targray's portfolio of aluminum solar panel frames is a trusted source for PV module manufacturers seeking superior mold sophistication at a competitive price.

How many solar panel manufacturers are there?

Companies involved in Frame production, a key sourcing item for solar panel manufacturers. 154 Frame manufacturers are listed below.

What are aluminum solar frames?

Aluminum solar frames along with high alloy stainless steel frames are made with the highest tolerances and great forming capabilities, to produce the excellent quality aluminum solar frame that we are accustomed to produce. This expertise is ready and at your disposal for high and low volume production quantities.

What are solar panel frames made of?

Most of the solar panel frames we provide are made from anodized aluminum due to the strength, durability, and resistance of the material. Anodized aluminum is a non-conductive material which causes no interruptions in the normal functioning of solar panels. It has a high level of tensile strength to resist winds, snow, and other natural elements.
