As South Africa's Eskom and Nigeria's Eko Electric scramble to adopt this model, Malabo becomes the blueprint for climate-resilient energy across the continent.

As we watch the Malabo Industrial Energy Storage Plant Operation evolve, remember: this isn't just about megawatts and algorithms. It's about ice cream shops keeping freezers running, ...

We also had China Railway Construction Corporation and CIRDL partnering with GEPetrol to build a refinery in Malabo. In addition, we played a lead in the launch of the Central African ...

The Malabo project aims to change this narrative by combining solar power with cutting-edge lithium-ion battery systems. Let's break down what makes this initiative special:
