POWERCHINA is currently working on Phase I of the Safou Solar and Storage Power Station Project, the largest solar and energy storage initiative under construction in Mali.

This project aims to accelerate Mali's energy transition through changes in policy and regulatory frameworks and large-scale capacity building. It emanates from the flagship ...

The project consists of a 56 kWp grid-tied solar photovoltaic (PV) system with an integrated 80 kWh battery storage solution, designed for self-consumption and backup power during ...

Designed to integrate advanced battery technologies and smart grid systems, this project represents a critical step toward achieving energy resilience in both urban and remote areas.
