Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on its network to arrest the fluctuation inherent to Variable Renewable Energy (VRE) systems. This is due to the increasing share of VRE in Mauritius' energy mix, as the country's energy transition to a low carbon economy gains momentum.

How will Mauritius transition to a low carbon economy?

Mauritius is transitioning to a low carbon economy, with the Central Electricity Board (CEB) installing the first grid-scale Battery Energy Storage System (BESS). This is the first of its kind in Mauritius and enables high capacity storage of renewable energy in the grid.

What is Mauritius' long term energy strategy?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by 2025. This includes reducing the country's dependence on coal and heavy oil for electricity generation.

What is Mauritius aiming to reduce dependence on?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by, reducing the country's dependence on coal and heavy oil for electricity generation.

The CEB is committed to further expanding its BESS capacity to meet growing energy demands and support the integration of renewable energy. These efforts are part of a broader strategy ...

Expected ROI of battery storage container project in Mauritius 2026. Why is battery energy storage system being introduced in Mauritius? The CEB is introducing a Battery Energy ...

The CEB is committed to further expanding its BESS capacity to meet growing energy demands and support the integration of renewable ...

Why should you choose Machan for your energy storage enclosure? Machan has extensive experience in the manufacture of outdoor enclosures, enabling us to meet the diverse needs ...
