What is metal clad switchgear?

Metal clad switchgear features compartmentalized construction and withdrawable components for reliable medium voltage power distribution. Metal enclosed systems provide compact and cost-effective power distribution with fixed-mounted breakers and protective devices. Available Options:

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

Can a switchgear be custom made in Canada?

High-quality custom switchgear should meet certifications such as CSA C22.2 for Canada or IEC 62271 internationally. Reputable switchgear manufacturers in Canada ensure compliance with these standards. Can medium voltage switchgear be customized for specific applications?

What are the advantages of metal clad switchgear?

Metal-clad switchgear offers several distinct advantages that make it the go-to choice for many installations: : Metal enclosures and compartmentalized design reduce the risk of arc flash and electrical faults spreading. : Components like circuit breakers can be withdrawn without dismantling the entire system.
