---

In most application scenarios, PCM is usually encapsulated in containers, so the design of lightweight, corrosion-resistant, high thermal conductivity, and low-cost PCM ...

The 100-MW CSP project, featuring 12 hours of molten salt energy storage, uses the tower molten salt energy storage CSP technology independently developed by Cosin Solar Technology Co., ...

Extreme environment tolerance: The cabinet needs to resist ultraviolet exposure, temperature difference deformation, and chemical corrosion to ensure the stable operation of internal ...

Extreme environment tolerance: The cabinet needs to resist ultraviolet exposure, temperature difference deformation, and chemical corrosion to ...
