---

Mongolia has both nomadic herders in remote areas and urban households in cities like Ulaanbaatar, and their energy needs vary greatly, requiring tailored solar solutions.

This is a professionally developed outdoor mobile power supply and new energy storage product. Intelligent inverter technology, with 1500 rated power and 1008wh capacity.

That's Mongolia's reality - and why outdoor power supply solutions have become hotter than a Gobi Desert midday. Over 35% of rural Mongolians still lack reliable electricity access, creating ...

The government of Mongolia has set targets to increase the share of generation capacity from renewable energy sources to 20% by 2023 and 30% by 2030, and to build export-oriented ...
