Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Further to the first phase 10 MW plant, SPS and partners are already looking to expand the project to deliver clean renewable energy to additional customers in Namibia.

The solar plant is under construction at Maxwell Farm in North Central Namibia, with completion expected in early 2025.

The Ombru Energy Storage Project is located in central northern Namibia, with a designed storage capacity of 51 megawatt hours. It can release electricity to the grid during ...
