Is Nepal Telecom ready for 5G?

At the moment, Nepal Telecom (Ntc) has started a 5G trial for insiders. Soon, the public will have access to it. Smartphones with 2600 MHz band (n41) support will connect to Ntc 5G. Likewise, Ncell is awaiting approval from Nta for its own 5G goals while the company's CEO Andy Chong has already stated that it's ready for the trial.

How many 5G operators are there in Nepal?

By February 2022, there were 427 operators in 137 countries/regions with 5G (GSA). People here have also started to demand 5G service here in Nepal. With the initiation of such demand, we are going to discuss everything about 5G network in Nepal now after Ntc, one of the operators has already started the trial.

When was the first telephone exchange established in Nepal?

The first telephone exchange was established in Kathmandu in 1960. From 1960 to 2004, the state-owned Nepal Telecommunications Corporation (NTC), also known as Nepal Telecom, or Nepal Doorsanchar Company Limited (NDCL), had been the monopoly telecom carrier. Now, there are only two operators, so Nepal's telecom industry is a duopoly market.

Where is Nepal Telecom located?

Nepal Telecom's central office is located at Bhadrakali Plaza, Kathmandu, with branches, exchanges, and offices in 184 locations nationwide. Nepal Telecom is the sole provider of fixed-line, ISDN, and leased-line services in Nepal. Its monopoly on GSM mobile services ended in 2005 following the entry of Ncell (formerly Mero Mobile).

These data can be visualized by applying filters by technology (no coverage, 2G, 3G, 4G, 4G+, 5G) over a configurable period (only the last 2 months for example). It's a great tool to track ...
