There"s a revolution brewing in batteries for electric cars. Japanese car maker Toyota said last year that it aims to release a car in 2027-28 that could travel 1,000 kilometres ...

Energy storage systems, usually batteries, are essential for all-electric vehicles, plug-in hybrid electric vehicles (PHEVs), and hybrid electric vehicles (HEVs).

Ford Motor, General Motors, BMW and other automakers are exploring how electric-car batteries could be used to store excess renewable energy to help utilities deal with ...
