The Nigerian state of Lagos has sought bidders to show interest in constructing 4GW-worth of power stations. These gas-fueled power plants are part of its new authority to ...

President Bola Tinubu has disclosed that the Nigeria-Grid Battery Energy Storage System will benefit from a planned \$500 million facility from the African Development Bank ...

Sub-economic electricity tariffs have discouraged investment by independent power producers in the past, but the government has started to remove electricity subsidies.

We recommended a suite of measures, including localised solar power generation, energy efficiency improvements, and battery storage solutions. We also proposed a collaborative ...
