Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

We are currently developing our plans for a giga-scale battery factory in Orkland, Norway. Elinor will build the factory in modules to limit financial and technological risk.

Elinor Batteries plans for a giga-scale battery factory near Trondheim, Norway. Based on 100% renewable energy and nordic mineral resources, the factory will supply sustainably produced ...

It can be delivered with battery capacity from 330 to 900kWh, depending on use case and specifications. In addition to batteries, the container includes HMI, control systems, DC link ...
