With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa. We have developed ...

Global mining operations have enormous energy load requirements, and powering each project is incredibly costly, especially for off-grid and micro-grid solar system applications in remote ...

In sub-Saharan Africa, where diesel generation costs average \$0.40/kWh, solar container systems reduce energy expenses by 45-60% for mining operations and telecom ...

Our integrated solar systems provide companies with an off-grid energy option that is not only environmentally sustainable but also significantly more reliable and cost-efficient.
