SIMULATE A POWER OUTAGE BY UNPLUGGING THE UPS AND CHECK THAT YOUR SERVER TURNS OFF CLEANLY. Lastly, be sure to configure OMV email alerts ...

So I noticed that OMV had NUT plugin. Seems to work fine on the OMV device, only does not show temps (graph is blank), after checking specs on this model APC states it ...

One of the last issues for OMV has been finished today. The UPS plugin enables you to define how to act on power loss, e.g. immediately force a shutdown after a given time ...

Hook it up to my windows pc, and use plink.exe (found with putty) to send a shutdown command from windows if device goes on battery power. Then I can use one ups to ...
